Preface for Depository NATO Library Catalog in Pristina

(Catalog has been published on the occasion of inauguration on April 8, 2005)

The National and University Library is an important place of knowledge and meetings in Prishtina not only for students but for all citizens. It is also a symbolic part of Kosova culture.

I am happy and proud on the occasion of opening NATO Depository Library within this prestigious institution. This depository, which is going to be a part of a larger library network, will offer access to genuine NATO-documentation for Prishtina residents and residents from all over Kosova.

The best part of the documents within this fund are result of NATO publication services. Prepared by NATO services, their main aim is to give to the citizens the key information in order to understand our organization as an impartial and transparent organization. Other documents within this fund are from academic resources, documents that are also result of the reflections of NATO's work in Kosova.

Of course I would like this fund to get richer in the future in order to develop this depository library as NATO information reference collection accessible for interested citizens as well as for serious researchers.

I also think that creation of NATO depository library network should make possible enrichment on both sides for the members, professionals, and also for readers and researchers. Through this network we have available one instrument, it is our duty to create a place for exchanges and a dialogue.

This catalog is the first element now. I do not have any doubts it will be of benefit for readers, researchers and other members of our network.

Projet de préface au catalogue de la bibliothèque de dépôt de l'OTAN à Pristina

(catalogue publié à l'occasion de l'inauguration le 8 avril 2005)

La Bibliothèque Nationale et Universitaire est un lieu important de savoir et de rencontre à Pristina, non seulement pour les étudiants mais aussi pour tous les citoyens. C'est aussi un lieu symbolique de la culture du Kosovo.

Je suis donc heureux et fier de l'ouverture de la bibliothèque de dépôt de l'OTAN au sein de cette institution prestigieuse. Ce dépôt, qui s'inscrit dans un réseau plus large de bibliothèques, va permettre aux habitants de Pristina et du reste du Kosovo d'accéder à une véritable documentation sur l'OTAN.

La plupart des documents qui composent actuellement ce fonds proviennent du service des éditions de l'OTAN. Ecrits par les services de l'OTAN, ils ont pour objectif de donner aux citoyens les clés pour comprendre notre organisation en toute objectivité, dans un souci de transparence. D'autres documents complètent déjà ce fonds, documents issus de sources universitaires, documents issus aussi des réflexions menées sur l'action de l'OTAN au Kosovo.

Je souhaite évidemment que ce fonds s'enrichisse à l'avenir, de telle sorte que cette bibliothèque de dépôt devienne un pôle de référence sur l'OTAN, et qu'elle puisse accueillir aussi bien le citoyen curieux que le chercheur confirmé.

Il me semble aussi que la création du réseau de bibliothèques de dépôt de l'OTAN devrait permettre un enrichissement mutuel pour chacun de ses membres, enrichissement pour les professionnels de la documentation, mais aussi pour les lecteurs et les chercheurs. Nous disposons à présent avec ce réseau d'un outil : il nous appartient d'en faire un lieu d'échanges et de dialogue.

Ce catalogue est déjà un premier élément. Je ne doute pas qu'il sera utile aussi bien aux lecteurs sur place, qu'aux chercheurs et qu'aux autres membres de notre réseau.

Parathënie për Katalogun e Depoziturës së Bibliotekës së NATO-s në Prishtinë

(botuar me rastin e përurimit, 8 prill 2005)

Biblioteka Kombëtare dhe Universitare është një vend i rëndësishëm i dijes dhe takimit në Prishtinë, jo vetëm për studentët por për të gjithë qytetarët. Është gjithashtu një vend simbolik i kulturës së Kosovës.
Jam i lumtur dhe krenar për hapjen e Depoziturës së Bibliotekës së NATO-së në gjirin e këtij institucioni prestigjioz. Kjo depoziturë, e cila futet në një rrjet më të gjerë të bibliotekës, do t'ju mundësojë banorëve të Prishtinës dhe tërë Kosovës të kenë qasje në dokumentacion të vërtetë të NATO-së.
Pjesa më e madhe e këtyre dokumenteve që aktualisht e përbëjnë këtë fond rrjedhin nga shërbimi i botimeve të NATO-së. Të shkruara nga shërbimet e NATO-së, kanë për objektiv t'ju japin qytetarëve çelësat për të kuptuar pa asnjë paanësi organizatën tonë, me brengën e transparencës. Tanimë dokumente tjera kompletojnë këtë fond, dokumente që rrjedhin nga burime universitare, dokumente që rrjedhin gjithashtu nga refleksione të bëra mbi veprimin e NATO-s në Kosovë.
Sigurisht se dëshiroj që ky fond të pasurohet në të ardhmen, në atë mënyrë që kjo bibliotekë të bëhet pikë referuese për NATO-n, dhe që ajo të mund të pranojë ashtu sikurse qytetarët kureshtarë edhe shkencëtarët e konfirmuar.
Më duket gjithashtu se krijimi i rrjetit të depoziturave të bibliotekave të NATO-së do të
duhej të mundësonte pasurim të dyanshëm për çdonjërin nga anëtarët e saj, pasurim për profesionalistët e dokumentacionit, por gjithashtu për lexuesit dhe kërkuesit. Me anë të këtij rrjeti disponojmë me një mjet: na takon që ta bëjmë vend të këmbimeve dhe të dialogut.
Ky katalog tanimë është elementi i parë. Nuk dyshoj që nuk do të jetë i dobishëm ashtu
sikurse për lexuesit e pranishëm, ashtu edhe për kërkuesit dhe anëtarët tjerë të rrjetit tonë.
